• EXPERIENCE - PROJECTS

Lead Frontend Developer

Stand In multicanal

I'm in charge of frontend development.

I used lit-element and web components for the development of these screens, the javascript language was fundamental for the development of the logic, for the styles I used Sass, I also handled a bit of Polymer. I integrated the function to access accounts and cards when the host is down in the BBVA companies app.

Frontend Developer

Firma Diferida

In this project I participated as a support area integrating some screens using web components with lit-element with Javascript language as well as styling with Sass.

Lead Frontend Developer

Personal Project (e-commerce)

I'm in charge of frontend development.

I used HTML, CSS, Javascript, ReactJs, bootstrap, react-bootstrap, REST-API, Redux technologies.
